## PROFILE

Growing up in Milton, I always had a strong interest in the arts and design, as evidenced by the courses I took in high school. At the same time, I was very active in sports, particularly lacrosse. On graduating from high school, I marketed myself to numerous universities and in doing so was able to obtain a scholarship to Newberry College, in South Carolina, to study Graphic Design. Having graduated, my goal is to obtain an entry level role where I can continue to grow my skills and knowledge in the field of graphic design.
